Subject: We are answering an urgent call to action to help those fighting COVID-19.

Reply-To: Top Shelf Distillers <contact@topshelldistillers.com>

WE ARE MOBILIZING TO HELP THOSE FIGHTING COVID - 19

Frontline workers in care homes, essential service workers at grocery stores, social workers without the means to isolate clients in crowded group homes, neighbours caring for elderly loved ones and so many more need our help.

As distillers we have the knowledge, infrastructure, staff and resources to produce alcohol based hand sanitizers. We need your help to pivot our production line in this direction.

We don't have much time, so we are asking for your support now.

We received an overwhelming amount of calls and emails [after a story aired on CTV](#) about our first batch of hand sanitizer. Facing a number of very difficult choices in this situation, we believe that [crowdfunding](#) is the one solution to get the most Sanitizing Handwash to the most people in as short a time as possible. Only through this approach are we going to begin to meet the colossal demand from the frontline. We choose to help the many and not just a few. Help us mobilize to fight COVID-19.
